Dear Sir:

25X1A

Attached is a letter from [REDACTED] outlining the procedure they would like to follow for certification of technical and maintenance services performed.

This method is satisfactory to our office subject to your approval.

With regards to travel we feel that approval of such must come from the using Command or your office. However, it is not necessary to issue Government orders or TR's if SAC feels this is not in accord with the regulations. The cost of travel is reimbursable under the contract. Therefore, the only question should be; is the travel in the best interest of the Government? If so an informal approval by SAC or your office is satisfactory and a written notice to our office should be made in order that at time of Contractor's billing for such travel, approval will be granted automatically.

Sincerely,

25X1A

Don
